- ▶ Residuals and T2D distributions with the current (on the left) and old (on the right) t0 and T2D tables
- ▶ The old distributions are obtained using this timestamp : May 23, 2026
- ▶ Both distributions are obtained using coatjava development. The run number is 22712 and the elastic cuts are $3.5 < W^2 < 3.8 \text{ GeV}^2$, $|\Delta\phi| < 20^\circ$, nb hits per track ≥ 6
